M E M O R A N D U M

ST. CLAIR COUNTY - Solid Waste Disposal
Fairmont City/Metro Disposal Corp.

TO: C. W. Klassen, Director
Environmental Protection Agency

RECEIVED

AUG 11 1970

FROM: Region II

DATES OF INSPECTIONS: July 29, August 3 and 6, 1970
ENVIRONMENTAL PROTECTION AGENCY
STATE OF ILLINOIS

INTERVIEWED: Kenneth Dixon, Site Manager

On July 29, August 3, and August 6, 1970, inspections of the above named solid waste disposal site were conducted by Sanitary Inspector Richard L. Ballard. Site manager, Kenneth Dixon, was contacted on August 3, 1970, at the site.

This site was scheduled to be opened on August 1, 1970. This date has been delayed because of on-site preparations and rain. At the present time a shelter and chemical toilet have been provided, the entrance and on-site road has been built. A soil stabilization project has been completed and some cover material from diking and excavation on the site has been provided. No gate or barrier has been placed at the entrance as yet.

On August 6, 1970, standing water was observed on the site after two days of heavy rains. No one could be located on the site and it is not known when the site will be opened; however, Mr. Dixon did say that he would call this office when it was ready to receive refuse.

This report is submitted for your information.

Richard Ballard
Sanitary Inspector
